ALL ORDERS TAKEN ARE SUBJECT TO THE FOLLOWING CONDITIONS:

Prices, terms and freight allowances herein published supersede all others, and are subject to change without notice.
All prices apply to ware only and do not include fittings unless specifically mentioned.

GOODS IN TRANSIT: All goods are inspected, checked and packed by experienced men. Every precaution is taken against breakage and other damages. Our responsibility therefore, ceases upon delivery of goods in good condition to the carrier.

FREIGHT ALLOWANCES on shipments of Washington-Eljer Enamel Ware Fixtures are as follows:

Carload rate of freight will be allowed on all shipments of 200 pounds or more with the following exceptions:

Manufacturing Points including Points where competitive Manufacturers have Branch Warehouses, in which case, full freight will be allowed except on Steel Sink Cabinets which are F. O. B. Los Angeles.

With the above exceptions, no freight allowance will be made on shipments of less than 200 pounds.

We reserve the right to equalize freight on shipments with allowances of competitive manufacturers.

In no case will freight allowance be in excess of actual freight paid and we reserve the right to select the transportation facilities.

Freight allowances are subject to change without notice.

GUARANTEE: In accordance with the uniform Guarantee adopted by The Plumbing Fixtures Industry, we guarantee WASHINGTON-ELJER Enamel Ware against manufacturing defects. If any item proves defective due to faulty workmanship or material within one year after installation, a new article of the same type and size will be furnished. No labor or other consequential damages will be allowed.

SPECIAL ORDERS: Orders for colored ware, special fixtures, or fixtures requiring drilling, will not be subject to change or cancellation after production has been started.

CLAIMS: All Enamel Ware fixtures are rigidly inspected and will be replaced only after being inspected by our representative and our permission obtained for return of fixtures.

A 10% handling charge will be made on all fixtures returned without our permission.

TAX: Any Manufacturers Sales Tax which may become effective will be added to these prices.

No Representative or Agent has the power or authority to change any of the above conditions.

Changes in Conditions or Prices are valid only if issued in writing from the Los Angeles Office.

It is no longer necessary for anyone on the Pacific Coast to experiment with unknown makes of Plumbing Fixtures. Due to our Pacific Coast location we are able to offer a very prompt service in the way of delivery and service.

The Washington Iron Works was established in 1896 and has developed and built up its business of quality and design and has attained a most enviable position in the Porcelain, Cast-Iron Plumbing Fixture Industry.

The Eljer Company was established in 1905 and has developed one of the most complete and popular accepted lines of Vitreous China Plumbing Fixtures in the United States.

In the year 1931 the two companies united their interests in forming the Washington-Eljer Company of California.

STEEL SINK CABINETS

(LESS FITTINGS)

GENERAL SPECIFICATIONS

W-1642-B and W-1652-B SINK CABINET

W-1660-D SINK CABINET

CONSTRUCTION: Fabricated throughout from 20 and 22 gauge cold rolled full finished steel sheets.

DOORS: Double faced, close flush with cabinet, insulated to deaden sound, easy swinging, and provided with extra strong hinges and spring catch.

DRAWERS: All drawer fronts are double faced, insulated to deaden sound, free running, and provided with special catch to prevent "Pulling out," also rubber bumpers protect in closing. Drawers spray enameled inside and out. Spacious cutlery drawer divided for knives, forks, etc.

SINK BOWL COMPARTMENT: Large—Roomy compartment. Bottom of compartment removable. Right and left hand side walls solid sheet metal from bottom to top—back is left open—plenty of room for pots and pans.

BREADBOARDS: A SPECIAL FEATURE—Board $3\frac{1}{4}'' \times 12\frac{3}{8}'' \times 17\frac{1}{4}''$ located over cutlery drawer—A great convenience at a small additional cost.

HARDWARE: Attractive black bakelite—Drawer and door pulls sturdily attached. Extra strong pressed steel hinges on doors, out of sight, rubber "door and drawer bumpers." All drawer guides are noiseless and especially designed to operate with greatest ease.

BASE: Adjustable for height from $33\frac{1}{4}''$ to $35\frac{3}{4}''$, allowing $2\frac{1}{2}''$ lee-way in setting—recess for "toe space"—easy to adjust and strong when set in desired position.

FINISH: Primed before final luster coat to prevent rust and corrosion—finish is heavy coat of synthetic enamel of most desirable quality—Finished all white with black "Kick Base."
